Amazon Web Services

Git

GitHub

EDUCATION

DIGITALCRAFTS

OCTOBER 2018

A coding bootcamp that teaches Full Stack JavaScript development

UNIVERSITY OF GEORGIA

MAY 2016

B.S.A. in Food Science

EXPERIENCE

JUNIOR REACT/NODE.JS DEVELOPER

MAY 2017 -
JUNE 2018

SALESVISTA, CHAMBLEE, GA

- Implemented a middle-out pagination algorithm for activity feeds that maximizes application efficiency while also providing more historical feed context to the user.
- Used object-oriented design principles to implement three new RESTful Node.js API endpoints to grant/revoke user admin privileges and update user profiles
- Added ability to access new admin endpoints through React components, creating the admin user flow of updating user details and admin permissions

FOOD TECHNOLOGIST

MAY 2017 - JUNE
2018

CKE RESTAURANTS HOLDINGS, INC,

PROJECTS

TABLE TALK TUTOR

OCT 2018

- A React Native application designed to make you sound cool at parties—it makes API requests from Google's, Bing's, and Twitter's external APIs to gather aggregate data for Twitter trending topics.

FRAMED INTENTIONS

SEPT 2018

- A React web application that allows you to create a virtual vision board (collage of images that helps you visualize your goals).
- Built using: React, Redux, Node.js, PostgreSQL, Interact.js
